

BHARGAV KUKADIYA

Senior iOS Developer & Apple Platforms Architect

Surat, Gujarat, India · +91 9374543494 · bhargavkukadiya007@gmail.com · bhargavkukadiya.github.io ·
linkedin.com/in/bhargavkukadiya · github.com/bhargavkukadiya

PROFESSIONAL SUMMARY

Senior iOS Developer & Apple Platforms Architect with **10+ years** of hands-on experience designing, architecting, and delivering high-performance, resilient applications across enterprise ecosystems and the App Store. Deep specialization in **Swift 6 Strict Concurrency** (@MainActor, Sendable, async/await), modern Apple UI frameworks (**UIKit**, **SwiftUI**), and decoupled architectures (**MVVM-R**, **VIPER**, **MVP**, **MVC**, **POP**). Proven track record engineering business-critical public sector enterprise platforms (**Civica - Collect**) and high-throughput production kiosk platforms (**Ezy Sign In**). Versatile full-stack contributor with **C#/.NET Core**, **Python**, modern web frontend (**JavaScript**, **Cappuccino**), and SQL backends. Author of **11 open-source Swift** packages, AI developer tools & cloud architecture guides.

CORE TECHNICAL COMPETENCIES

Languages & Standards:	Swift 6 (Strict Concurrency, async/await, Actor Model), Objective-C, C# (.NET Core), Python 3, JavaScript (ES6+, Cappuccino), Shell/Bash, SQL
Apple SDKs & Hardware:	UIKit, SwiftUI, AVFoundation (Camera/Media), Core Data, SwiftData, CoreLocation, Vision AI, WebKit, Passkeys, Brother SDK
Architecture & Design:	MVVM-R (Router/Coordinator), VIPER, MVVM, MVP, MVC, Protocol-Oriented Programming (POP), Dependency Injection, SOLID, Repository
Testing & Quality:	XCTest (Protocol Mocks & Unit Testing), XCUITest (UI Automation), Performance Profiling (Instruments), ISO 9001 QMS Compliance
CI/CD, DevOps & Cloud:	Azure DevOps / Pipelines, Fastlane (Match / Deployment Automation), Swift Package Manager (SPM), AWS Cloud Architecture, PyTorch / CLIP, Git, Postman

PROFESSIONAL EXPERIENCE

CIVICA — Enterprise Software for Public Sector & Regulated Markets

Vadodara, India | March 2020 – Present

Software Engineer (Senior iOS & Full-Stack Track)

- Architectural Delivery:** Architected and delivered core modules across regular release trains for **Civica - Collect**, an enterprise debt collection and field recovery platform serving public sector local government authorities and commercial enforcement agencies.
- Technical Impact Analysis:** Conducted technical impact analysis and authored robust system designs for complex customer requirements, engineering modular components adhering to Repository, Factory, Singleton, CQRS, and MVVM design patterns.
- Full-Stack Ownership:** Delivered full-stack features spanning native iOS (Swift, Objective-C), modern web frontend (JavaScript, Cappuccino / Objective-J), and backend services (C#/.NET Core, MySQL).
- Tier-3 Production Support:** Provided 3rd-line application support against strict client Service Level Agreements (SLAs), diagnosing and resolving complex production defects, performance bottlenecks, and background data synchronization edge cases.
- ISO 9001 Quality Governance:** Enforced rigorous quality standards adhering to ISO 9001 through multi-tier automated unit testing (**XCTest** for iOS, **OJTest** for Cappuccino web, and **C# backend tests**), peer PR reviews, and Git branching hygiene.
- Agile Leadership & Mentorship:** Collaborated closely with Product Owners, Technical Architects, and Project Managers in Scrum workflows while onboarding and mentoring junior engineers in Swift concurrency and production debugging.

NAROLA INFOTECH — Global IT Consulting & Mobile Software Engineering

Surat, India | January 2016 – March 2020

Senior Consultant / iOS Developer

- Multi-App Architecture:** Architected, built, and shipped 10+ production iOS applications on the App Store using Swift and Objective-C across **MVC**, **MVVM**, and **MVP** design patterns for international clients in sports, coaching, and lifestyle sectors.
- Custom UI & Animation Engines:** Engineered responsive, pixel-perfect user interfaces using Auto Layout, Size Classes, and custom animation engines optimized for all iPhone and iPad screen dimensions.
- Backend & Media Integration:** Integrated secure RESTful APIs, in-app purchases (StoreKit), real-time push notification pipelines (Firebase / APNs), and local persistence layers (Core Data / SQLite).
- Engineering Standards:** Instituted Git-based branching strategies, automated linting, and reusable component libraries that accelerated sprint velocity across client engagements.
- App Store Lifecycle:** Managed end-to-end code signing, provisioning profiles, TestFlight beta distribution, and App Store production releases maintaining high user ratings and 99.9% crash-free stability.

FEATURED PRODUCTION APPLICATIONS

Civica - Collect — Enterprise Debt Collection & Enforcement Platform

[Product Overview ↗](#)

Mission-critical field debt collection and recovery platform trusted by public sector local authorities and commercial enforcement agencies.

- Architected and shipped business-critical features across release trains; performed impact analysis using Repository, Factory, CQRS, and MVVM patterns.
- Investigated complex production issues and client support tickets against Tier-3 SLAs, authoring root-cause documentation and technical hotfixes.
- Automated CI/CD build/release workflows via **Azure DevOps**, **Azure Pipelines**, and **GitHub Actions**; engineered multi-tier unit test suites across **XCTest** (iOS), **OJTest** (web), and **C# backend tests** under ISO 9001 quality compliance.

Ezy Sign In — Enterprise Visitor Management & Touchless Kiosk

[App Store \(Swift 6 New\) ↗](#)[App Store \(Obj-C Legacy\) ↗](#)

Engineered next-generation iPad & iOS kiosk platform from scratch using **Swift 6 Strict Concurrency**, **UIKit**, and **MVVM-R (Router/Coordinator)** with complete protocol-based dependency injection; also maintained legacy Objective-C production kiosk.

- Integrated **Brother thermal printer SDK** (WiFi/Bluetooth) for real-time visitor badge printing and **AVFoundation** for high-resolution camera photo capture with automated face framing.
- Implemented WebKit-based digital NDA legal signature flows, full XCTest protocol mock suites, XCUITest automated UI flows, and multi-language localization (EN, FR, FR-CA).

Skate to Ski & My Board & Coaches — Athletic Training & Video Technique Platforms

[Skate to Ski on App Store ↗](#)

Production athletic training and coaching mobile applications designed for professional sports technique analysis and structured training curricula.

- Architected custom video playback pipelines, interactive drill flows, and dynamic Auto Layout interfaces supporting all iPhone and iPad screen sizes.

OPEN-SOURCE PACKAGES, DEVELOPER TOOLS & CLOUD GUIDES

PasskeyManager: Apple Passkeys (WebAuthn / ASAuthorizationController) for Swift 6

SwiftDataManager: iOS 17+ SwiftData persistence layer with @ModelActor background threading

PhotoCaptureManager: Privacy-preserving camera & PhotosUI (PHPicker) capture engine

PDFFormHelper: Production-grade PDFKit engine for AcroForms, signatures & flattening

macos-dir-tools: Zero-dependency POSIX Bash & Python CLI toolkit with fast duplicate hashing

aws-beginner-guide: Comprehensive 16-module practical AWS architectural reference & MkDocs site

CoreDataManager: Thread-safe Core Data singleton with auto migrations & background queues

LocationManager: Async/await CoreLocation manager with geofencing & continuous tracking

FontManager: Typography design tokens engine with Dynamic Type accessibility scaling

photo-curator: AI photo curation engine using PyTorch, OpenAI CLIP aesthetics & MPS

azure-pipelines-guide: Production YAML CI/CD automation templates for iOS & .NET multi-stage

Open-Source Ecosystem: All 7 Swift packages released under SPM v1.0.0 with dedicated XCTest suites

ACADEMIC DEGREES & FOUNDATION

Master of Computer Applications (MCA) — G.H. Patel P.G. Department of Computer Science & Technology, Sardar Patel University

2013 – 2016 | CGPA: 7.07

Bachelor of Computer Applications (BCA) — Swami Vivekanand College of Computer Science, MK Bhavnagar University

2009 – 2012

PROFESSIONAL CERTIFICATIONS & CONTINUOUS LEARNING

Advanced C# & .NET Development: 5 Modules (OOP, SOLID, ADO.NET, LINQ, ASP.NET Core) · *PluralSight*

Secure Software Development (SSDLC): OWASP Top 10, Security Controls & Defensive Coding · *PluralSight*

SQL Database Development: 5 Modules (Query Optimization, Indexes, Stored Procedures) · *PluralSight*

JavaScript Language & Functions: Modern ES6+ Architecture, Prototypes & Async Flow · *PluralSight*
